

Cultural Diversity in School

A must-have resource for school board members and school administrators

Promoting multicultural awareness and sensitivity to diversity issues in schools is often a daunting mission for school boards and administrators. WSSDA's new publication, *Cultural Diversity in School*, is specifically designed to help the leadership team carry out this challenging responsibility.

Written by WSSDA Diversity Consultant Gregory Eliyu Guldin, Ph.D., this invaluable guide offers extensive information and practical advice on addressing and fostering cultural diversity in schools, including:

- **An Orientation to Diversity**, covering topics such as gender, religion, language minorities, race and racism, sexual orientation, poverty, and ethnicity;
- **The American School**, focusing on issues such as ethnicity and disproportionality, multicultural education, and language minorities and cultural variations in schools; and
- **Making Positive Changes**, a discussion of approaches that school boards and administrators can use, including suggestions on dealing with prejudice, discrimination, stereotyping and youth violence, and strategies for community engagement.

Also included is an extensive list of published and online resources on cultural diversity. This guide is a must for your diversity program. Place your order today!
